What’s our mission?
Your Foundation’s mission is to support and facilitate patient-centered care, actively promote health and wellness and advance medical research and education for the benefit of the University Medical Center New Orleans, its patients, and friends.

Who benefits?
Founded in 1993 by Jerry Romig, the Foundation traditionally supported the medical needs of our most vulnerable populations. The Foundation has raised the level of patient care at Charity and University Hospitals, the Interim LSU Hospital and, now, at University Medical Center New Orleans. We are helping friends, family and neighbors when they need help the most.

What does that mean?
It means providing care can be personal by:
• Supporting friends that need medication financial relief, medical equipment, or transportation assistance to treatments.
• Assisting in furthering medical research in areas like PTSD, tuberculosis, and health literacy that directly benefits families.
• Ensuring care for neighbors living with cancer, burns, HIV and other health challenges.

Where does funding come from?
The Foundation is a 501c3 nonprofit that raises funds through public, private and corporate donations, special events, sponsorships and more. We then manage these donations, making sure they go to the right place, for the right purpose.
Why is support important?
Because giving is in our roots. With a legacy nearly 300 years in the making, our hospital delivers care to our community through a compassionate staff and an environment built from the ground up to provide healing to others. We couldn’t do it without you!

What now?
Your firsthand experience with UMCNO and/or your patients makes your input invaluable. You can make a major impact by:
• Advocating and promoting awareness of our work and helping identify potential donors.
• Supporting a Foundation event by attending or introducing potential partners and sponsors.
• Financially supporting an impactful Foundation program that benefits your patients and hospital.

Who we are

Dr. Peter DeBlieux
Volunteer Executive Director

Dean Howard
Director of Philanthropy

Stacy Gerhold Marvin
Foundation Coordinator
